## Building Pros Pick Their Top 100 Products

Things that make life a bit easier, more profitable and better.

**35. Dryerbox.** This box insets behind the clothes dryer between wall studs to accommodate a flexible exhaust hose. Once installed, homeowners can push their dryer flush against the wall, but the box allows the hose to maintain a smooth curve that helps prevent lint from accumulating in kinks and sharp curves. 888-443-7937.
